

Survey-Can we
make a
difference?

Meeting in Poland, October 2014

1. I am environmentally friendly

2. I use water consciously

3. I walk/cycle to work/school or go by bus/car

4. Public waste in my town recycled

5. I think children are encouraged at school or by their parents enough to be more environmentally friendly

6. I think industrial plants pollute air in today's world.

7. I reuse plastic bottles, plastic bags, paper, etc.

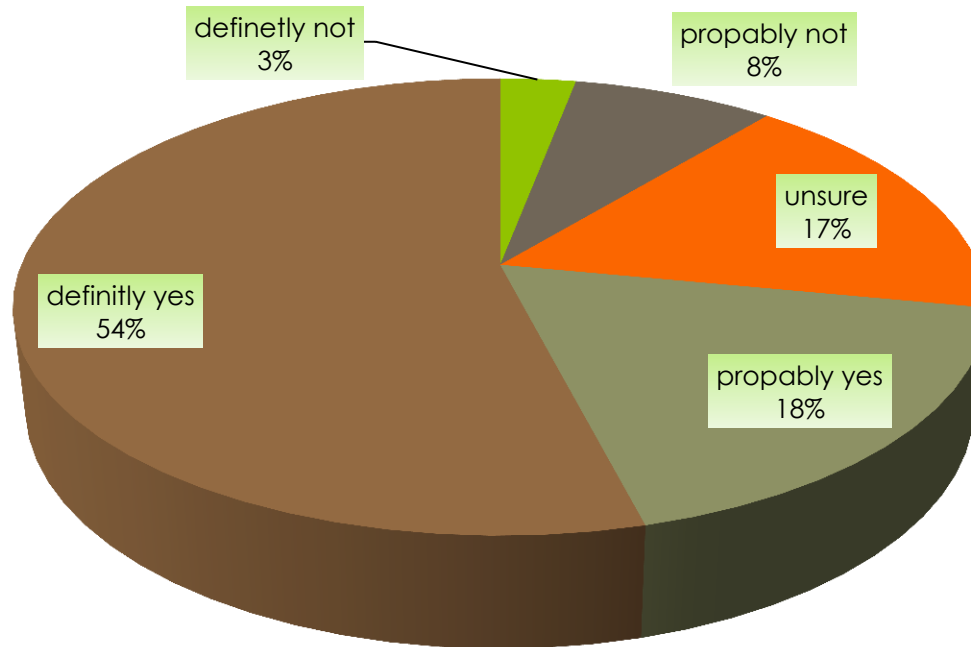

8. I try not to use so much packaging (wrapping paper, foil, etc.)

9. I have a shower more often than I have a bath

10. I have water-saving devices at home (tap, dual-flush toilet)

11. I turn off equipment like TV and computers when not in use, including the red standby light

12. If there is enough daylight from a window, I don't switch the light on

13. I print documents on both sides of recycled paper

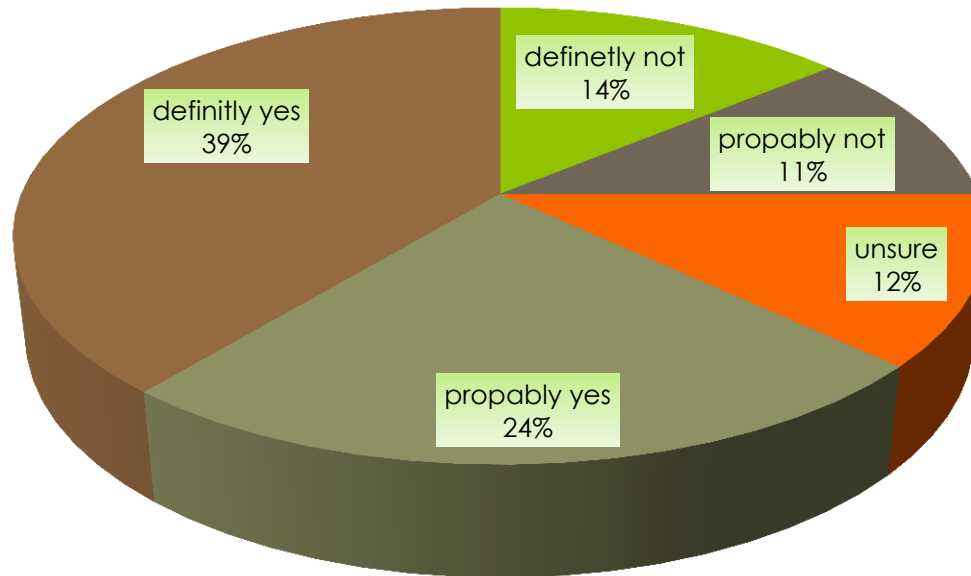

14. I run the washing machine at 30 degrees

15. I choose biodegradable detergents

16. I take my own bags to the supermarket

To sum up

- Yes, we can make a difference , but we are at the beginning of being ecologically friendly
- I think we should be ecologically friendly,because if we don't want to achieve something , we can never reach it

Thank you for your attention
